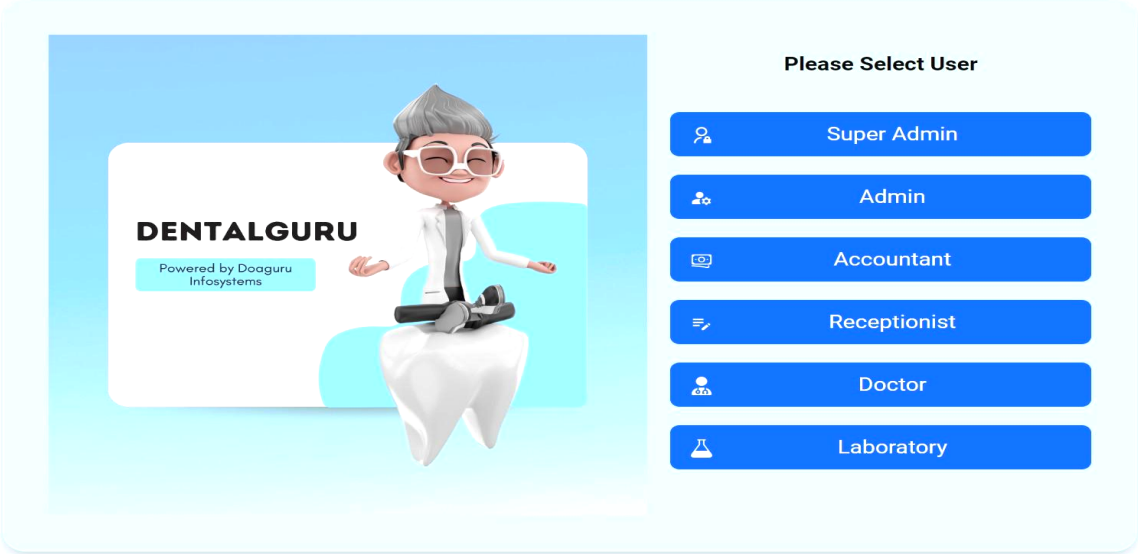
Product Overview: Dental Clinic Management Web Software

Introduction



Our Dental clinic management web software is a comprehensive solution designed to streamline Dental clinic operations. It offers functionalities for receptionists, doctors, administrators, accountants, and laboratory staff, enhancing the overall efficiency and quality of

dental care services.This software integrates appointment booking, treatment management, administrative oversight, financial management and lab operations into a unified platform.

Key Features

1.Patient Appointment Booking

- **User-Friendly Interface**: Users can easily navigate the system to book appointments with their preferred doctors.
- **Real-Time Availability**: The system shows real-time availability of doctors, allowing users to choose suitable time slots.
- **History and Records**: Users can view appointment history and upcoming Appointment.

2. Doctor Treatment Management

- **Patient Records:** Doctors can access detailed patient records, including medical history, previous treatments and current medications.
- **Treatment Plans**: Create, update, and manage treatment plans for each patient.
- **Prescription Management**: Generate digital prescriptions directly to patients.

3. Accounting Management

- **Billing and Invoicing**: Generate and manage bills for patient services.
- **Payment Processing**: Accept and track various payment methods.
- **Financial Reporting**: Create detailed financial reports to monitor revenue.

4. Laboratory Management

- **Test Orders**: Doctors can order lab tests directly from the system, which are then sent to the lab.
- **Result Management**: Lab technicians can upload test results, which are then accessible to doctors.

5. Admin Dashboard

- **Comprehensive Overview:** Administrators can view an all-encompassing dashboard with metrics on appointments, treatments and overall hospital performance.
- **User Management:** Add, remove, and manage user roles, doctors, support staff, accountants and lab technicians.
- **Analytics and Reporting:** Generate reports on various parameters such as Lab Income reports, OPD Income reports and treatment outcomes.

6. Super Admin Dashboard

Role Management: Create, modify, and delete roles and permissions for all users within the system.

- **Ultimate Oversight**: Super admins have the highest level of access, with the ability to oversee and manage all aspects of the system.

Modules

- ➢ **Super Admin Dashboard**
- ➢ **Admin Dashboard**
- ➢ **Receptionist**
- ➢ **Doctor**
- ➢ **Laboratory**
- ➢ **Accountant**

Software Access

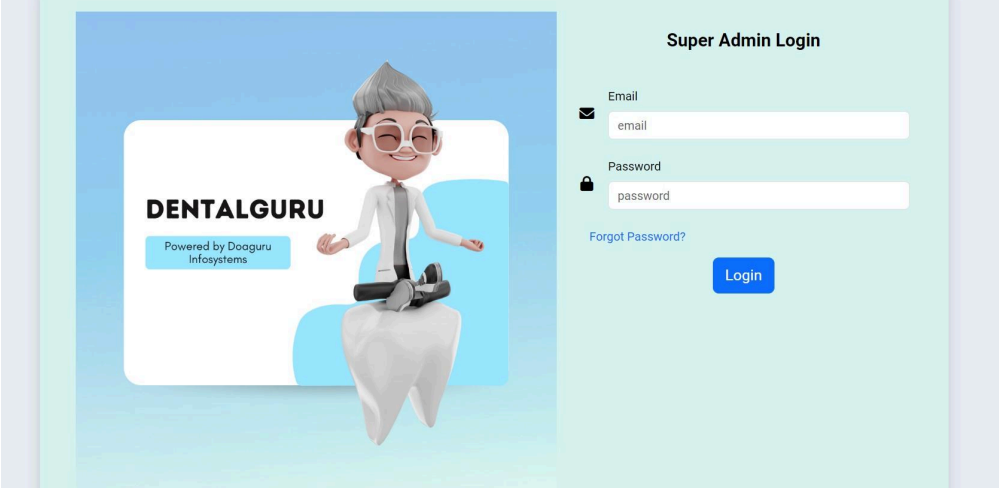
Super Admin Module

1. Open the browser and enter the URL

URL to Application

2.Press Enter or click Go

3.The login page of the application appears as Login Screen



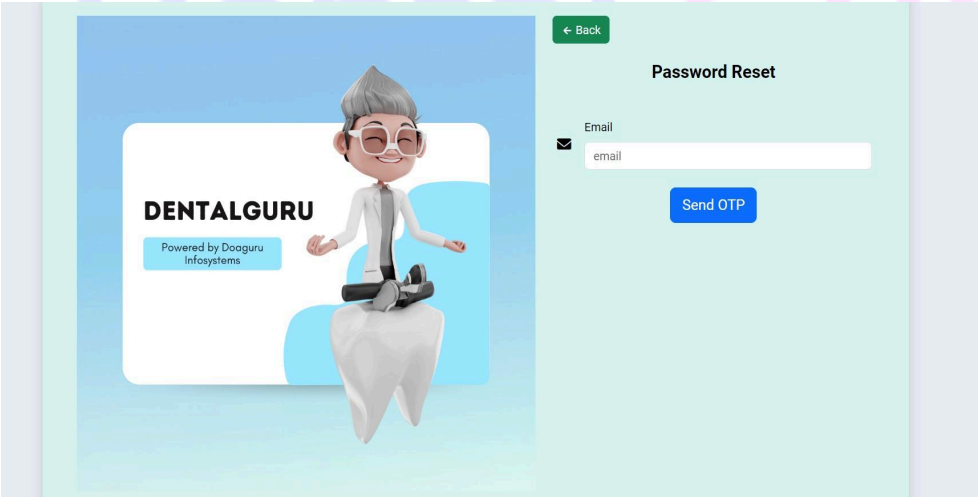
4. Login

- ➢ Enter the email in the email textbox
- ➢ Enter the Password in the Password textbox
- ➢ Click LOGIN
- ➢ OTP will send on registered email
- ➢ Fill the OTP and Press enter or click ok

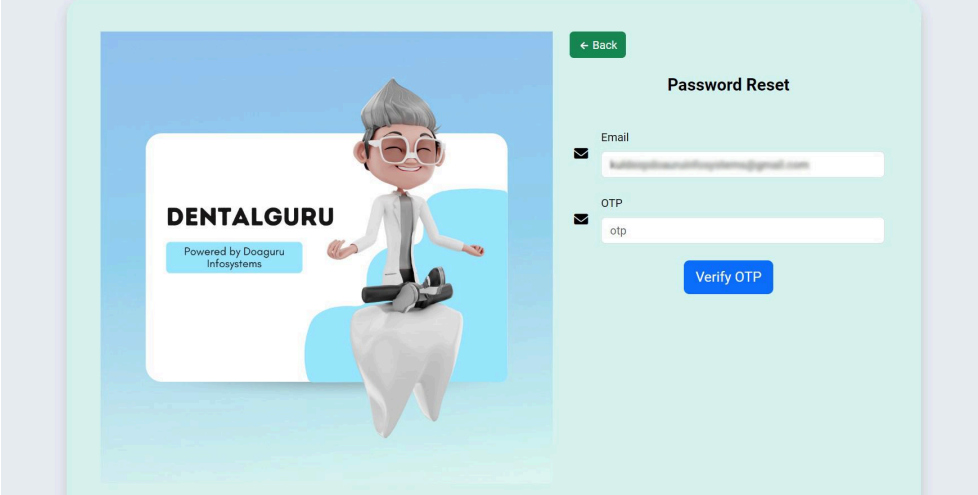
5. Logout

- ➢ Click the profile icon on the top right hand corner of the browser and Click the Logout (**when logged in**)

6. Forgot Password



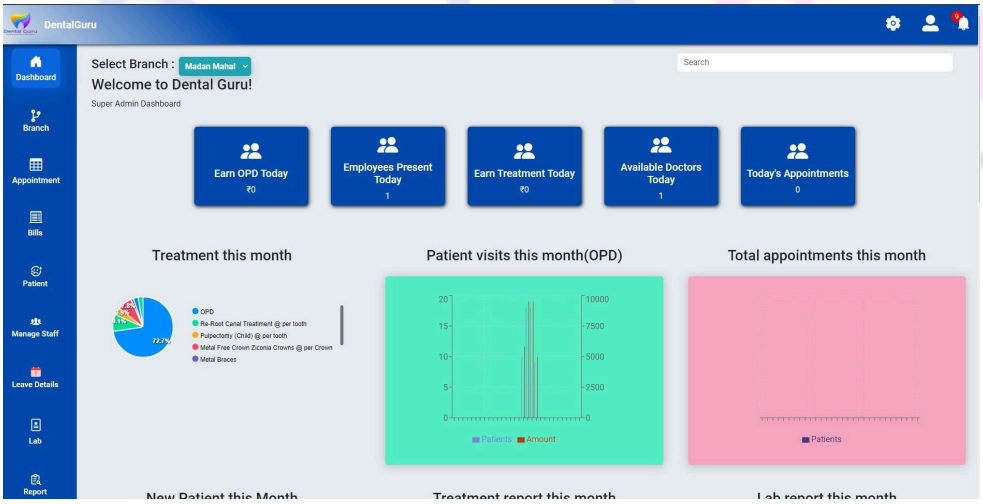
- Click on the Forgot Password
- Screen as Password Reset appears
- This will ask the user to enter the Email ID.
- Enter the Email in the Email textbox.
- Click Send OTP.
- OTP will send on registered Email.



Fill the OTP and click on verify.

- Enter the New password
- Click on reset password to reset password

After the Logged In screen as Dashboard Appear



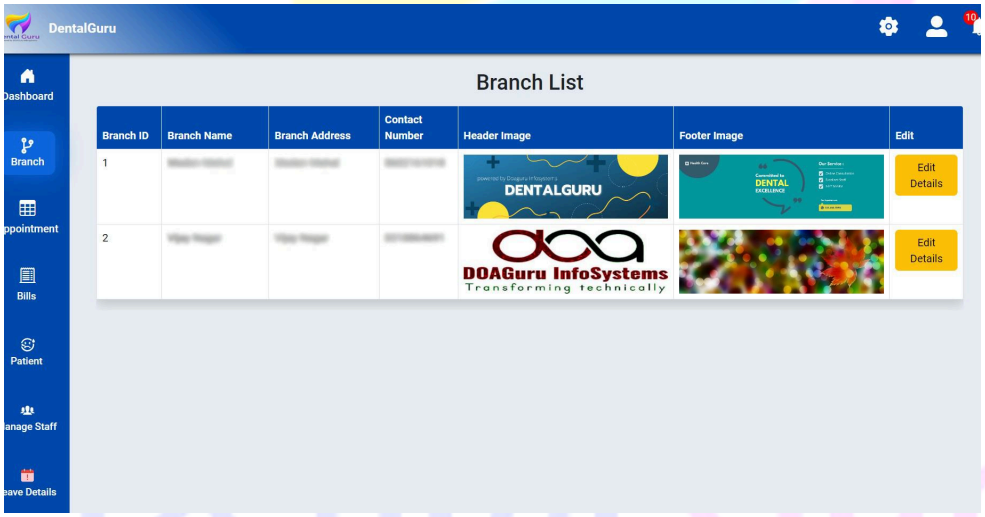
In super admins dashboard user see today's all the activity like

- Today's OPD Income
- Today's employees availability
- Today's treatment Income
- Today's doctors availability
- Today's Appointments
- Complete treatments in chart form
- Patient visits this month, Total Appointment this month in graph form
- New patient this month and lab report in graph form

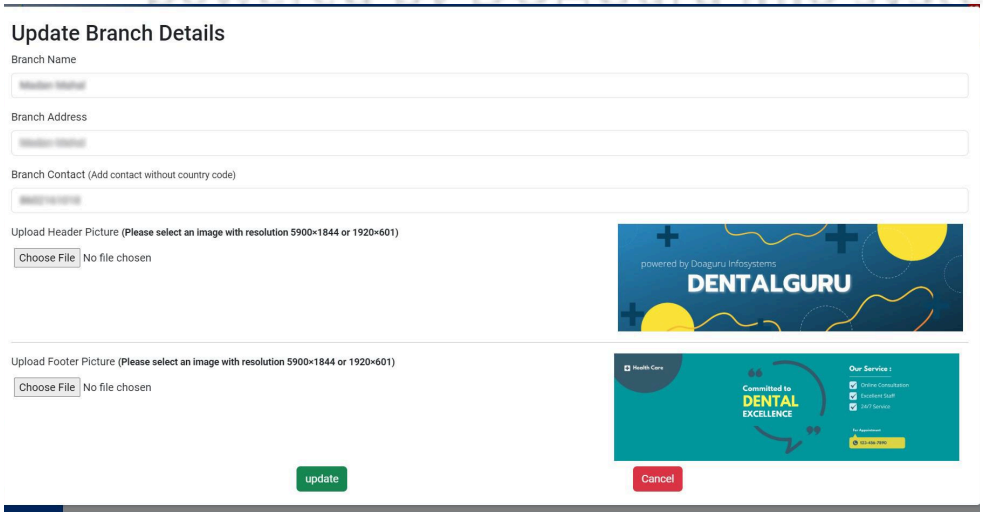
In sidebar all component presents
In navbar Notification, user profile and clinic setting present

Edit branch details:

- Click on the branch which is present in the sidebar.



- Screen as Branch list appear
- Click on edit branch



- Screen as Update branch details appear
- Update required field and click on save.

Appointment Details:

- To view All appointment details
- Click on appointment which is present in sidebar

  Screen as Appointment Details appear
